**ABOVE:** This is Morris, the house cat at Horizons, a DePaul Senior Living Community in Canandaigua. According to Administrative Assistant Kimberly Robinson, Morris is a 17-pound orange tiger who loves to hang out at the front desk just lounging. He loves to chase the laser pointer that the residents have and most of all he loves, loves, loves his treats. He will fall all over himself to get to anyone who is willing to give him treats. Morris also likes to have the top of his head rubbed. He brings a smile to everyone's face, resident or visitor. He sometimes lays in the middle of the hallway near the front entrance rolling around in the sunshine and the residents just think that it's the greatest thing ever.

**BELOW:** Morris sits in the middle of the office, probably getting ready to do some paperwork. SUBMITTED PHOTO
